

EULALIA PIRONE

Jr Front End Developer

EDUCATION

MASTER

January 2022 - November 2022

Start2Impact | Front End Development

Implementing websites from concept through deployment

ABOUT ME

Graduated in Linguistic and Cultural Mediation during my studies I realized that, whether it is about helping a person or a community, I am keen to take part in projects whose aim is to provide the most efficient solution to solve people's problems.

Due to my learning path, I acquired my skills in complete **autonomy**.

This approach led me to the improvement of my **problem-solving** skill besides teaching me from day one how to **manage difficulties on my own**.

FUTURE GOALS

My next goal is to **consolidate** what I already know, **increase** my skills and **improve** myself in order to be more **efficient**.

Aware that I still have a lot to learn, my next goal is to take in backend technologies and become a fullstack developer.

LANGUAGE SKILLS

- Italian: mothertongue
- Portuguese (B2)
- English (B1)
- Arabic MSA (B1)
- French (B1)
- Spanish (A2)
